Welcome 2018 — Year of the Dog

The lunar calendar for 2018 will symbolize man's best friend. I think this is one of the ideal signs to be born in. There are so many famous furry friends that have grown to be household names... Toto, Oddie, Pluto, Scooby, Snoopy, Old Yeller, Marley, Lassie, all come to my mind. Wonderful four legged friends... if you were born in the cycle of this sign, consider yourself... a lucky dog!

We start the New Year with a fresh slate of classes! Welcome back Julie Ebersole in March with her popular 10 card classes! Also, look for our trip around the world card classes... these are themed cards with choices like Hawaii or travel to Europe and Asia. We will try and cover all of the fun traditions.

Make it a New Year's resolution that 2018 will be your year to get creative and make something exciting with paper!

P.S. I will try and remember to put fun tid-bits about myself in my newsletters this year... here's something about me that maybe you don't know... I am a big big Disney fan. I don't really have anything Disney in my home, but I dream about Main Street and eating all of the fun candy and snacks... I mean the pretzels there taste better than Snyder's because they are shaped like Mickey heads. I love watching the fireworks and riding everything especially "It's a small world" and I love the Disneyland hotel and Grand California. I love looking for hidden Mickey's and even day dream about living in downtown Disney! I never get tired of Disneyland. I'm in line by 7am and leave I'm running (literally running) to my last ride at midnight. Walt is my hero!!! It really is the happiest place on earth!
