Newsletter Volume 57 | July / August / September 2020

I am all by myself, with two lights on at the store and my front doors that would normally be open... are locked! I'm waiting for someone to rescue me or wake me up from a terrible dream, or bring me back to reality because I feel like I'm in the Twilight Zone.

It is here in my dark store, where I create cards and thank my lucky stars that I have wonderful customers like you who are buying my class card kits, and like me, want to pass the time by creating something fun so I am mailing their cardstocks and stamp supplies and restocking their craft tables for more "pass the time" goodness! You are all wonderful, again, thank you... I will always value a dollar and "ALWAYS" value the words "shop local, shop small business!"

I'm just one story, Miles is another, my poor 14 year old son had to finish his school year online and be without his friends, no swimming, no waterpolo, no after school activities, I told him he's not the only one going through this, everyone has a story to tell.

And as I write this, I am pretty optimistic our doors will be open it's going to be a wonderful 14 year anniversary party on Labor Day weekend with lots of customers! We plan to spoil our customers with fun make and takes and a special discount on Friday, September 4th to Monday, September 7th. Cheers to renewing friendships and getting crafty! If you are interested in any of these classes being kitted, please let us know and we will happily kit them and send them out to you!

With this said, I won't ever take my health for granted and to be alive and creating, and to thank you, my wonderful customers and friends who have been so gracious to continually shop at The Paper Garden! Let's move forward with safe, healthy, crafty fun! Thank you again from the bottom of my heart! P.S. If you signed up for Cindi Nelson's class, we are hoping to move forward in October, stay tuned!

\*\* a little tid bit about me... Well, this COVID-19 is one for the history books, and during this time, I was on tv three times with my son Miles. We had to do zoom interviews and interviews live with just the camera man standing 6 feet apart as I was demonstrating some fun Spring and Easter crafts. I had to just wing it, and even though I could barely hear the anchors, I almost felt like I was back in TV land, same old thing, You're live in 10 seconds, talk for 3 minutes straight without messing up, demonstrate and talk about three important points of your story and then toss back to the anchors... and get their names right! Again, just like the good old days!
